

INSPIRING INNOVATION

\$500 grants to power the potential of Duval County teachers.

PowerUP Jax is an initiative of the Jacksonville Public Education Fund. It's a \$500 competitive grant to fund innovative projects to raise student achievement. Lead sponsor Community First Cares Foundation believes in seeding innovation and rewarding creativity among public school teachers — so they're funding 20 projects!

We're excited to have the "Lightning Round" contest that will provide an extra \$150 to the winning grant applicant with the most votes by community members!

All of the grant winners will be entered into the running for the \$1,000 Community First Innovation Prize which is presented at the 2016 EDDY Awards Gala and Ceremony on Saturday, March 12, 2016.

Visit www.powerupjax.org to learn more about the competitive grants process.
